

## Project list

Selected projects with an overall contract value above 20,000 EUR to which Informus participated over the last ten years. Projects sorted by end date in descending order.

Start	End	Acronym	Customer	Project type	INF role	Project name and description
06/2013	on-going	TESPaMM	EUMETSAT	IT services	Sole provider	<i>Generation of test data for the EPS-SG passive microwave missions</i> Simulate four full orbits of future microwave imagers to support instrument design and the development of evaluation algorithms.
07/2007	on-going	COCASSE	IOLR (IL)	Consulting	Consortium partner	<i>Coastal Ocean Case Studies</i> Prepare background reports on oceanic conditions potentially affecting planned coastal infrastructures.
01/2003	on-going	DAQAS	UBA (DE)	IT services	Consortium leader	<i>Data Acquisition and Quality Assurance System</i> Database-backed system to support acquisition and quality assurance of atmospheric trace gas measurements for WMO's GAW program.
01/2011	12/2013	HELM	EC / FP7 PI: UBA (AT)	Consulting	Consortium partner	<i>Harmonising European Land Monitoring</i> Harmonise (sub-)national land monitoring to enable integration into a coherent European Land Use and Land Cover (LULC) system.
09/2010	09/2013	SUBMARINER	BMU (DE)	Consulting	Sole provider	<i>Sustainable Uses of Baltic Marine Resources (co-funded by the Baltic Sea Region Programme 2007-2013 of the EU)</i> Investigate the potential of new uses of Baltic Sea resources such as macro algae cultivation or blue biotech.
12/2007	04/2013	AVAC-S	EUMETSAT	IT services	Sole provider	<i>A-Train Validation of Aerosol and Cloud properties from SEVIRI</i> IDL-based software package to support the evaluation of aerosol and

Start	End	Acronym	Customer	Project type	INF role	Project name and description
						cloud products derived from SEVIRI measurements.
01/2012	10/2012	ALBEDOVAL	EUMETSAT	IT services	Consortium leader	<i>Evaluation of satellite-retrieved broadband surface albedo</i> Quality assessment of the surface albedo climate data record (CDR) derived from EUMETSAT's MVIRI instrument.
10/2010	12/2011	BOM	EUMETSAT	Consulting	Sole provider	<i>Benefits of Oceanography Measurements</i> Study on current and anticipated future uptake of space-based oceanographic measurements by National Meteorological Services.
2010	2011	SUK BERLIN	SenStadt Berlin (DE)	Consulting / field work	Consortium leader	<i>Lake Shore Morphology Mapping in Berlin</i> Mapping the shore morphology for the Havel Lakes with a total length 138 km in the federal state of Berlin.
2010	2011	VOK-NS	NLWKN (DE)	Field work	Consortium leader	<i>Watercourse Morphology Mapping in Niedersachsen</i> Mapping the morphology of small and medium sizes water courses with a total length of xxx km in the federal state of Niedersachsen.
07/2010	06/2011	SUK SH	LLUR (DE)	Consulting / field work	Sole provider	<i>Lake Shore Morphology Mapping in Schleswig-Holstein</i> Mapping the shore morphology for 18 lakes with a total length 234 km in the federal state of Schleswig-Holstein.
01/2007	09/2010	GNU	EC / FP6 PI: UBA (AT)	Consulting	Consortium partner	<i>GMES Network of Users</i> Investigate and document the situation of GMES (now Copernicus) from a user's perspective and suggest improvements.
10/2005	10/2008	GSE-FM	ESA / GMES PI: GAF AG (DE)	Consulting	Consortium partner	<i>GMES Services Element - Forest Monitoring</i> Development of space observation based global operational services to support forest monitoring and related reporting obligations.
02/	07/	MUDAB-EVAL	UBA (DE)	Consulting	Consortium	<i>Evaluation of the German Marine Environmental Database (MUDAB)</i>

Start	End	Acronym	Customer	Project type	INF role	Project name and description
2006	2007				leader	Evaluate MUDAB operations and suggest improvements to increase its usefulness for both experts and the larger public.
01/2005	01/2006	MUDAB-WEB	UBA (DE)	IT services	Sole provider	<i>Web client to the German Marine Environmental Database (MUDAB)</i> Improve the access to the German Marine Environment Database MUDAB by establishing a web client based on a SOAP webservice.
09/2002	09/2005	SISCAL	EC / FP5 PI: ULCO (FR)	IT services	Consortium partner	<i>Satellite-based Information System on Coastal Areas and Lakes</i> Operational processor to generate user specific water-quality information in near-real-time from satellite observations.
2004	2005	SUK Survey		Consulting	Sole provider	<i>Establishing a Lake shore morphology assessment method</i> Development of a method to evaluate the morphology lake shores in the federal state of Mecklenburg-Vorpommern using pre-existing knowledge.
